

## SafeSurf Rated

Thursday, October 14th 2004

My site is now rated with the [SafeSurf](#) rating system. It's rated as "Adult Supervision Recommended". I haven't been approved by SafeSurf yet, but hopefully I soon will get my license. Have a look at [my rating](#).

[SafeSurf](#) is voluntary rating service which uses the [PICS](#) specification to rate web pages based on content, using meta tags. I highly recommend you [rate your site](#) today.
