

## Find My Easter Egg

Thursday, December 1st 2005

A while ago I remember reading about an easter egg in [Mint](#). You type in a secret code and receive a special prize, or something.

I thought it sounded ... neat. And we all know neat stuff is like so neat ... and stuff. Anyway, I started to create my own easter egg, and came up with this "[neat](#)" [little script](#).

HINT: jibby
