

About Matt

Sunday, May 20th 2007

I'm Matt Read, a 29 year old male from Ottawa, Canada. That's the capital of Canada for all you who don't know that already. I enjoy skateboarding, playing hockey and soccer, and working on my website.

My favourite TV show of all time is MacGyver, and Good Will Hunting is my favorite movie. I program in PHP, MySQL, Javascript, and Bash Scripting, and I love playing with Python. I'm a bit pedantic about producing semantic

(X)HTML (and no, valid does not mean semantic).

About This Site

This site is my personal website since June 2003. This site is powered by Habari. It contains my (almost) daily web log about my life and stuff I find on the Internet. For more information and help in browsing this site, visit the links below.
